PROFESSIONAL SUMMARY

Software Engineering student at INTEC and full-stack developer building and delivering web and mobile applications. Developed a bilingual management platform used by healthcare and aesthetics clients and Miga, a Flutter meal-planning product submitted for iOS App Store review. Experienced in authentication, real-time apps, databases, and mobile release workflows. Seeking full-stack or frontend opportunities.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Dart, C#, C++

Frontend & Mobile: React, Next.js, Flutter, Riverpod, HTML, CSS

Backend: FastAPI, Node.js, Express, REST APIs, Socket.IO

Databases & Cloud: PostgreSQL, MySQL, MongoDB, Firebase, Supabase, Appwrite

Tools & Delivery: Git, GitHub Actions, Docker, Linux, Bash, Prisma, Codemagic, RevenueCat

Spoken Languages: Spanish (Native), English (C1)

EXPERIENCE

Freelance Full-Stack Developer — Aug 2026 - Sep 2026

GIO Workspace | *React, TypeScript, Supabase, PostgreSQL, Vite*

- Built and delivered a bilingual management platform used by a dental practice and aesthetics center for appointments, patients, staff, financial reporting, and inventory.
- Implemented Supabase authentication, role-based access, database migrations, and automated GitHub Actions checks; owned requirements, architecture, UI, and client delivery.

SELECTED PROJECTS

Miga - Meal Planner | Flutter, Supabase, RevenueCat

- Built a cross-platform meal-planning app with recipe discovery, randomized weekly meal generation, grocery lists, budget optimization, and Pro subscriptions.

Melodix | Flutter, Riverpod, FastAPI, PostgreSQL

- Built a music streaming app with JWT auth, background playback, playlists, search, artist profiles, and cloud media uploads.

Discord Clone | Next.js, TypeScript, Prisma, Socket.IO, LiveKit

- Built a real-time community platform with servers, channels, live messages, voice/video calls, file sharing, and role-based permissions.

WhatzApp | Flutter, Firebase, Socket.IO, LiveKit, Agora

- Created a cross-platform messaging app featuring media sharing, voice/video calls, and a custom WebSocket chat server.

EDUCATION

Bachelor of Science in Software Engineering — Aug 2025 - Expected 2029

INTEC - Instituto Tecnologico de Santo Domingo
